

JAM 2020 Workshops

Bird and Land Animals: Turning Sound into Discovery Using Wildlife Audio Recorders as a Valuable Research Tool. (Wildlife Acoustic Staff)

This will be a hands-on workshop based on the Song Meter SM4 and Song Meter Mini acoustic recorders and Kaleidoscope Pro analysis software. The first half of the workshop will focus on the set-up and deployment of Song Meter recorders. The second half of the workshop will focus on data analysis using the Kaleidoscope Pro software analysis suite. Participants will learn how to use Kaleidoscope Pro to quickly and efficiently sort through recordings of birds and land animals using a feature call Clustering. The development of classifiers will also be discussed. Closer to the workshop date, we will send an email with instructions telling you how to install a demo license of Kaleidoscope Pro Analysis Software along with sample recordings on your own computer for hands-on practice during the workshop. Limited space available.

Fee: Free

Timeline:

8:00 AM -11:50 AM

Bats: Turning Sound into Discovery Using Wildlife Audio Recorders as a Valuable Research Tool. (Wildlife Acoustic Staff)

This will be a hands-on workshop based on the Song Meter SM4BAT FS and Song Meter Mini Bat ultrasonic recorders and the Kaleidoscope Pro analysis software. The first half of the workshop will focus on the set-up and deployment of Song Meter recorders. The second half of the workshop will focus on data analysis using the Kaleidoscope Pro software analysis suite with Bat Auto ID. Participants will learn how to use Kaleidoscope Pro to quickly and efficiently sort through bat recordings to meet project objectives. Closer to the workshop date, we will send an email with instructions telling you how to install a demo license of Kaleidoscope Pro Analysis Software along with sample bat recordings on your own computer for hands-on practice during the workshop. Limited space available.

Fee: Free

Timeline:

1:00-5:00 PM

Student Resume/Interview Workshop

Students will have the opportunity to meet with professionals to review their resumes, receive advice on careers, and even participate in mock interviews with professionals who have been through it all before.
